

Teacher's Responsibilities

Teachers are responsible for maintaining discipline and control of pupils throughout the visit

A teacher or adult helper is admitted free to the Park for every five or more children. Extra adults pay the normal entrance fee.

SAFETY

To help the children to enjoy their day we have a few basic safety rules.

These will be explained to the group during their introductory talk.

- Please walk while in the Park. Our paths are laid with gravel and uneven.
- Please do not climb on fences or safety barriers. They are intended to mark boundaries and will not take the weight of children.
- Although we welcome enthusiasm, the animals become stressed by excessive noise. The quieter

the children are, the more they will see!

- Otters bite! Please do not touch the netting around the animal enclosures.
- Please do not feed the animals. All our animals are on carefully controlled diets.
- Please treat the countryside with respect. Do not drop litter or pick the flowers.
- Please stay on the paths.

RISK ASSESSMENT

There is a full risk assessment for educational group visits but teachers are welcome to carry out their own as part of a pre visit.
